Learning the Language of Mathematics 47 ciples using ordinary subjects, but it is not a major difficulty for the stu-dent Also, mathematical language is devoid of emotional content, al-though informally mathematicians tend to enliven their speech with phrases like fiLook at the subspace killed by this operatorfl or fiWe want to increase

Solutions Unit One: Exploring What It Means To 'Do ...

Most people have their views on what makes a "good maths teacher" If one analyses these views, good maths teachers essentially fall into two groups

The one group teaches algorithmically, to the test, and generally gets “good results” This type of teacher, at the Grade 12 level produces many A’s for his/her school and is usually highly praised for doing this Many learners who have

Contents

dinosaur-inspired activities (there’s even a mathematical dino-song!), and ‘Maths to Share’ encourages teachers and practitioners to reflect on the grouping they use for pupils in their care and consider its implications for learning and social development www.ncetm.org.uk A Department for Education initiative to enhance professional
