NATURAL HAZARDS - assets.cambridge.org

Natural hazards afflict all corners of the Earth; often unexpected, seemingly unavoidable and frequently catastrophic in their impact This revised edition is a comprehensive, inter-disciplinary treatment of the full range of natural hazards Accessible, readable and well supported by over 150 maps, diagrams and photographs, it is a standard

A study in fear-of-the-Lord faith from the book of Job ...

Revised Edition Used by permission 8 Who Is In Control? Tornadoes are one of God's most powerful natural phenomena In a tornado's funnel, winds can easily exceed 300 km per hour In fact, I've seen a picture of a piece of straw blown through a wooden fence post by a tornado If a tornado strikes your house, there won't even be pieces to pick up afterwards I once read an interview
